Objective

Motivated and detail-oriented Computer Science Engineering student specializing in Cyber Security, seeking internship and project opportunities to apply and enhance skills in security, programming, and system design. Passionate about developing secure software solutions and learning cutting-edge cybersecurity technologies.

Education

Galgotias University — B.Tech in Computer Science Engineering (Full Stack)

Expected Graduation: 2026 (Assuming 4-year program started in 2022)

Current Year: 3rd Year

Skills

Programming Languages: Java, C, Python

Tools & Technologies: MySQL, VS Code, Linux (basic commands), Cisco Packet Tracer

Cybersecurity Concepts: Network Security, Ethical Hacking basics, Secure System Design

Soft Skills: Problem-solving, Team collaboration, Time management

Projects

Online Voting System

- Developed a Java-based online voting application with user authentication and database connectivity (MySQL).
- Implemented user login system and data retrieval from the database ensuring secure access.

Design Thinking Course Project

- Completed a course and received a certificate on Design Thinking. Applied concepts to solve real-world problems through innovative design solutions.

Internships / Training

Currently no formal internships listed

Open to opportunities in software development and cybersecurity.

Extracurricular Activities

- Active participant in university workshops and coding challenges related to cybersecurity and software development.
- Volunteer in college events promoting technical awareness and learning.

Achievements

- Successfully completed the Design Thinking course with certification.
- Consistently good academic performance in core computer science and cybersecurity subjects.
